PROFESSIONAL SUMMARY

Results-driven **Full Stack & Mobile Developer** with experience building scalable web and cross-platform mobile applications using **Laravel, React.js, React Native, Vue.js, Inertia.js, and Node.js**. Proven expertise in developing RESTful APIs, responsive e-commerce platforms, mobile apps published on Google Play, and custom WordPress deployments. Adept at collaborative development, performance optimization, and clean architectural design.

TECHNICAL SKILLS

Frontend & Mobile: React.js, React Native, Vue.js, Inertia.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap

Backend & CMS: PHP, Laravel, Node.js, Express.js, REST API Architecture, WordPress Development

Databases: MySQL, MongoDB, Database Design & Optimization

Tools & Workflow: Git, GitHub, Postman, Composer, npm, Play Console Deployment, VS Code

WORK EXPERIENCE

Junior Full Stack Developer • ADMK Solutions

Jul 2025 – Present

- Collaborated in team environment to engineer **Shoqi's Restaurant (Germany)** platform using Laravel, Inertia.js, React.js, and MySQL.
- Designed, developed, and deployed robust Laravel RESTful APIs and backend services for production mobile applications including **NoorConnect**.
- Developed cross-platform mobile functionality with React Native and released applications to the Google Play Store.
- Designed high-converting modern Web applications and interactive E-commerce dashboards using React.js and Tailwind CSS.
- Engineered APIs for Puzzles Game and integrated dynamic user interfaces across client projects.

Full Stack Developer Intern • Gene Tech Agency

Dec 2024 – Jun 2025

- Developed full-stack web applications using Laravel, PHP, Express.js, Node.js, React.js, and MySQL/MongoDB.
- Customized, maintained, and deployed corporate WordPress portals based on client requirements.
- Built RESTful APIs and integrated user authentication, authorization, and CRUD operations.
- Optimized app execution, debugged client issues, and used Git/GitHub for version control and sprint collaboration.

FEATURED PROJECTS

Shoqi's Restaurant (Germany) — Laravel, Inertia.js, React.js, MySQL

Live Web App ↗

- Co-developed full-stack food ordering platform for a German client with server-side rendering and interactive React frontend.

NoorConnect & Noor Tasbih Mobile Apps — React Native, Laravel REST API, MySQL

NoorConnect Play Store ↗ | Tasbih Play Store ↗

- Architected and developed complete backend REST APIs using Laravel & MySQL for NoorConnect, enabling smooth data synchronization for mobile users.
- Built Islamic mobile applications with React Native, integrating backend API services and publishing on Google Play Store.

React Web Applications & E-Commerce Dashboards — React.js, JavaScript, Tailwind CSS

- **Elite Commerce:** frontend-elite-commerce.vercel.app ↗
- **Luxe Cart:** luxe-cart-e.vercel.app ↗
- **Forma Web:** forma-dun-seven.vercel.app ↗
- **AI Agency Landing Platform:** agency-ai-ivory-chi.vercel.app ↗
- **E-Commerce Platform:** e-commerce-kohl-rho.vercel.app ↗

WordPress Commercial Portals — WordPress, PHP, Custom Themes

- **Setup Hero AE:** setuphero.com/ae ↗
- **Remote Opus:** remote-opus.com ↗
- **NAWIC MR:** nawic-mr.green ↗
- **Oman Cables & HDS Index:** omancables.com ↗ | hdsindex.com ↗

EDUCATION

BS Computer Science
Gomal University
2021 – 2025

ICS (Computer Science)
Rawalpindi Board
2019 – 2021

Matriculation
Rawalpindi Board
2017 – 2019
